

# Memo

To: Hunt Club Presidents and Members

From: Andy Norris  
Regional Director of Forestland Operations

Date: July 1, 2016

Re: Sunday Hunting – West Virginia

---

This memo serves as written permission for you and the members of your hunt club, as listed in the Hunting License Agreement with Oak Hill Forestlands NMTC, LLC or Appalachian Forests B, LLC to hunt on Sundays as allowed by West Virginia and local county hunting laws and regulations. This permission does not change or modify any of the terms of the signed Hunting License Agreement. All pertinent laws and regulations still apply to the club's hunting activities.

Copies of this memo can be made available by printing this letter for each club member to carry while hunting on the property on Sundays, as specified by the West Virginia law.

Not all counties allow Sunday hunting. *Hunters should check with the respective County Clerk's Office concerning Sunday hunting in case changes have been made by local referendums.* Hunting is prohibited on any Sunday preceding the Monday opening of a big game season, (deer, bear, turkey or boar).

Have a good hunting season.
